SUBJECT INDEX TO VOLUME 120

ABDOMEN, Emetine in treatment of intra-abdominal and retroperitoneal nonspecific granulomas, 792; Somatin anomalies of umbilicus and anterior abdominal wall, collective review, 1075

Abnormalities and deformities, congenital, Unified concept of lymphangioma and cystic hygroma, 79; congenital, Thoracic duct lymph drainage in, biliary atresia, 123; congenital, New method for creation of atrial septal defect, 830; Responsibilities of surgeon performing cosmetic surgical operations, ed. 1058; congenital, Somatin anomalies of umbilicus and anterior abdominal wall, collective review, 1075

Adrenal glands, tumor, Surgical management of pheochromocytoma, 707

Air, Control of, leaks following subsegmental pulmonary resections, 803

American Joint Committee for Cancer Staging and End-Results Reporting, Retrospective field trial for comparison of clinical classifications of carcinoma of cervix, 553

Amniotic fluid, Experimental, and meconium embolism, 255

Amputations, Complications following lower extremity, 301; Evaluation of factors which influence mortality and morbidity following major lower extremity, for arteriosclerosis, 1217; Multidisciplinary study of long term adjustment to, 1274

Androgens, Diethylstilbesterol versus tesosterone propionate therapy in advanced breast cancer, 1246

Anesthesia, Effect of, on energy exchange in third degree burns, 1207

Antibiotics, Penicillin, prophylaxis of experimental staphylococcal wound infections, 243

Antigens, Development of acquired blood group, in surgical patients with peritonitis due to Escherichia coli, 757

Anuria, See Urine, suppression

Aorta, Aorticointestinal fistulas following surgery of, 992; Results of ligation of inferior mesenteric artery at, in resections of carcinoma of descending and sigmoid colon and rectum, 1031

Aortic valve, Mitral, reconstruction or replacement in presence of moderate aortic insufficiency, 488; Suture holder and separator attachment of Starr-Edwards prosthetic, holders, 583; Clinical and hemodynamic results of debridement-valvotomy for calcific, stenosis, 770

Arms, Postmastectomy lymphedema, 797; lymphedema, Protection of axillary vein following radical mastectomy, 1063

Arteries, hepatic, Intrahepatic portal vein-, relationship, 38; grafts, Composite saphenous vein, for femoral-popliteal arterial bypass, 580; surgery, Management of infected arterial prosthesis, 585; surgery, New technique of rapid end-to-side arterial cannulation, 827; wounds and injuries, Arterial, associated with dislocation of knee or fracture of lower femur, 961; pulmonary, Mechanism of, hypertension following miliary, embolism, 1009; mesenteric, Results of ligation of inferior, at aorta in resections of carcinoma of descending and sigmoid colon and rectum, 1031; hepatic, Vascular patterns in human metastatic liver tumors, 1187; femoral, Application of sudden injection dye dilution principle to study of, circulation, 1194; mesenteric, Effect of reduced arterial pressure and flow on intestinal function, 1221

Arteriography, Preliminary, in hepatic artery infusions for cancer, 817

Arteriosclerosis, Evaluation of factors which influence mortality and morbidity following major lower extremity amputations for, 1217

Aspirin, Effects of, on gastric mucous secretion, 92

BILE DUCTS, atresia, Thoracic, lymph drainage in congenital biliary, 123; strictures, Postoperative, of extrahepatic, 560

Biology, Biologic basis for advances in thoracic surgery, 359

Biopsy, Mammography versus, ed. 1060

Bladder, Injury of, and prostatomembranous urethra associated with fracture of bony pelvis, 99; physiology, pressure in, Stress urinary incontinence in female, collective review, 595

Blood, circulation, Peripheral single-catheter cannulization for total cardiopulmonary bypass, 121; coagulation, Complications following lower extremity amputation, 301; circulation, Serial studies of, flow in second set renal homotransplants, 335; Comparison of protein-bound iodine in human thyroid vein and peripheral vein, 467; circulation, Hemodynamics of bronchopulmonary anastomoses, 517; coagulation, Use of epsilon aminocaproic acid, ed. 576; circulation, Composite saphenous vein graft for femoral-popliteal arterial bypass, 580; groups, Development of acquired, antigen in surgical patients with peritonitis due to Escherichia coli, 757; urea nitrogen, Intravenous urography in presence of uremia, 810; circulation, New technique of rapid end-to-side arterial cannulation, 827; circulation, extracorporeal, coagulation, Citrate toxicity and use of anticoagulant acid citrate dextrose, for, 997; circulation, extracorporeal, Bivenous diversion for approach to mitral valve lesions from left side, 1061; circulation, Application of sudden injection dye dilution principle to study of femoral, 1194

Blood pressure, arterial, venous, Treatment of shock in man based on hemodynamic diagnosis, 1; high, Effect of portal hypertension on intestinal absorption, 87; high, Experimental production of elevated portal, by increasing portal flow, 514; Use of central venous, as accurate guide for body fluid replacement, 545; high, Mechanism of pulmonary hypertension following miliary pulmonary embolism, 1009; low, Effect of anesthesia on energy exchange in third degree burns, 1207

Blood transfusion, Citrate toxicity and use of anticoagulant acid citrate dextrose, for extracorporeal circulation, 997

Blood vessels, Peripheral single-catheter cannulization for total cardiopulmonary bypass, 121; subclavian, First rib resection for distal exposure of, 578

Bone, infection, Treatment of chronic osteomyelitis, 59; blood supply, growth, Experimental study of vascular contribution to callus of fracture, 731

Book Shelf, Biologic basis for advances in thoracic surgery, 359; Benjamin Travers, scientific surgeon, 587; Duties and training of physicians in ancient India as described in Sushruta Samhita, 1067

Brain, Pulmonary and cerebral fat embolism after closed-chest cardiac massage, 25; surgery, Balances of water, sodium, potassium, and nitrogen in cranial, and trauma estimated by computer analysis, 761

Breast, cancer, in postmenopausal years, 17; cancer, Selective criteria for surgical removal of endocrine glands in advanced, collective review, 371; postmastectomy lymphedema, 797; blood supply, surgery, Early control of, in radical mastectomy, 822; cancer, Rationale of simple mastectomy without radiation for clinical stage 1, of, 975; Mammography versus biopsy, ed. 1060; surgery, Protection of axillary vein following radical mastectomy, 1063; cancer, Diethylstilbestrol versus testosterone propionate therapy in advanced, 1246

Bronchus, Hemodynamics of bronchopulmonary anastomoses, 517

Burns, Gentamicin sulfate in treatment of pseudomonas sepsis in, 351; Pathogenesis of second and third dedegree, and conversion to full thickness injury, 983; Effect of anesthesia on energy exchange in third degree, 1207; First-aid cooling of fresh, 1271

CALCAR FEMORALE, Significance of, in femoral neck fractures, 340

Cancer, Breast, in postmenopausal years, 17; of oral cavity in Negroes, 70; treatment, Relief of pain in terminal, ed. 115; treatment, Reappraisal of surgical adjuvant, chemotherapy, 299; Malignant melanoma, ed. 343; metastasis, surgery, Selective criteria for surgical removal of endocrine glands in advanced breast, collective review, 371; treatment, Effect of neodymium laser radiation on two experimental malignant tumor systems, 481; treatment, Report upon arterial infusion with 5-fluorouracil in 100 patients, 530; classification, Retrospective field trial for comparison of clinical, of carcinoma of cervix, 553; gastric, Large, 725; treatment, Preliminary arteriography in hepatic artery infusions for, 817; surgery, Rationale of simple mastectomy without radiation for clinical stage 1, of breast, 975; metastasis, treatment, Vascular patterns in human metastatic liver tumors, 1187; treatment, Diethylstilbestrol versus testosterone propionate therapy in advanced breast, 1246; dissemination, Circulating, cells during excision of carcinomas of rectum and colon with high ligation of inferior mesenteric vein, 1266

Cannulation, Peripheral single-catheter, for total cardiopulmonary bypass, 121; New technique of rapid end-to-side arterial, 827

Carcinoma, anaplastic, papillary, with associated, in thyroid gland, 28; treatment, Ten year experience with endometrial, 73; Results of ligation of inferior mesenteric artery at aorta in resections of, of descending and sigmoid colon and rectum, 1031; Circulating cancer cells during excision of, of rectum and colon with high ligation of inferior mesenteric vein, 1266

Cells, hyperplasia, Breast cancer in postmenopausal years, 17; Circulating cancer, during excision of carcinomas of rectum and colon with high ligation of inferior mesenteric vein, 1266

Chemotherapy, Reappraisal of surgical adjuvant cancer, 299; Report upon arterial infusion with 5-fluorouracil in 100 patients, 530; Preliminary arteriography in hepatic artery infusions for cancer, 817; Vascular patterns in human metastatic liver tumors, 1187; Preferential vasodilator effects in skin of eledoisin by infusion and perfusion techniques, 1285

Chlorpromazine, Utilization of, in heart storage and its combined use with hyperbaric oxygen and hypothermia, 1237

Cholecystitis, See Gallbladder, disease

Citrates, toxicity and use of anticoagulant acid, dextrose blood for extracorporeal circulation, 997

Classifications, cancer staging, Retrospective field trial for comparison of clinical, of carcinoma of uterine cervix, 553

Collective Review, Similar connective tissue dynamics in pregnant uteri and healing wounds, 131; Selective criteria for surgical removal of endocrine glands in advanced breast cancer, 371; Stress urinary incontinence in female, 595; Current trends of therapy and research in shock, 835; Somatin anomalies of umbilicus and anterior abdominal wall, 1075; Transplantation and immunity, 1317

Colon, cancer, Results of ligation of inferior mesenteric artery at aorta in resections of carcinoma of descending and sigmoid, and rectum, 1031; cancer, Circulating, cells during excision of carcinomas of rectum and, with high ligation of inferior mesenteric vein, 1266

Colostomy, Technique of repair of herniations associated with colonic stomas, 347

Correspondence, Effects of oxygen at 1 and 2 atmospheres on blood flow and oxygen uptake of cerebral cortex, correction, 370; Carcinoma of breast in women 30 years of age and under, correction, 1316

DIAGNOSIS, Treatment of shock in man based on hemodynamic, 1; Surgical management of pheochromocytoma, 707; Current trends of therapy and research in shock, collective review, 835; differential, Complications of duodenal diverticula and their management, 1251; Surgical intervention in acute pancreatitis, ed. 1301; Use of esophagoscope in, of rupture of esophagus, 1304

Diethylstilbestrol, See Estrogens

Diverticulum, Complications of duodenal, and their management, 1251

Dressings and bandages, Protection of axillary vein following radical mastectomy, 1063

Duodenum, ulcers, Long term results of partial gastric resection without vagotomy in, disease, 970; Complications of duodenal diverticula and their management, 1251

EDEMA, First-aid cooling of fresh burn, 1271

Editorials, Relief of pain in terminal cancer, 115; Malignant melanoma, 343; Use of epsilon aminocaproic acid, 576; Surgical principles, 820; Responsibilities of surgeon performing cosmetic surgical operations, 1058; Mammography versus biopsy, 1060; Surgical intervention in acute pancreatitis, 1301

Embolism, fat, Pulmonary and cerebral, after closed-chest cardiac massage, 25; pulmonary, Peripheral single-catheter cannulization for total cardiopulmonary bypass, 121; Experimental amniotic fluid and meconium, 255; pulmonary, Complications following lower extremity amputation, 301; pulmonary, Mechanism of, hypertension following miliary, 1009

Embryology, Somatic anomalies of umbilicus and anterior abdominal wall, collective review, 1075

Emetine, in treatment of intra-abdominal and retroperitoneal nonspecific granulomas, 792

Emphysema, Management of spontaneous pneumothorax due to emphysematous blebs, 499

Endocrine glands, Selective criteria for surgical removal of, in advanced breast cancer, collective review, 371

Endometriosis, Clinically significant, of urinary tract, 491

Endometrium, Ten year experience with endometrial carcinoma, 73

Epsilon aminocaproic acid, Use of, ed. 576

Escherichia coli, Development of acquired blood group antigen in surgical patients with peritonitis due to, 757

Esophagus, Pathology of lower esophageal web, 571; surgery, New method for reconstruction of esophagogastric junction, 1225; hernia, Use of esophagoscope in diagnosis of rupture of, 1304

Estrogens, Diethylstilbestrol versus testosterone propionate therapy in advanced breast cancer, 1246
Extremities, Glucose uptake by fractured and immobilized limbs in dog, 45; Complications following lower, amputation, 301

FEMUR, fracture, Significance of calcar femorale in femoral neck, 340; fracture, Arterial injuries associated with dislocation of knee or, of lower, 961
First aid, cooling of fresh burn, 1271
Fistula, vesicovaginal, Simple technique for closure of, 353; Aorticointestinal, following surgery of aorta, 992; Vaginal, following radiotherapy, 1019
Fluids, balance, Use of central venous pressure as accurate guide for body, replacement, 545
5-Fluorouracil, Report upon arterial infusion with, in 100 patients, 530
Fractures, Glucose uptake by fractured and immobolized limbs in dog, 45; associated injuries, Injury of bladder and prostatomembranous urethra associated with, of bony pelvis, 99; diagnosis, Significance of calcar femorale in femoral neck, 340; healing, Experimental study of vascular contribution to callus of, 731; Arterial injuries associated with dislocation of knee or, of lower femur, 961
Fredet-Ramstedt operation, Modification of classical, incision, 345

GALLBLADDER, disease, Acute cholecystitis, 475
Gastrointestinal tract, obstruction, Clinical evaluation of, pacer, 35; hemorrhage, Five year study on, bleeding, 784
Gastroschisis, Somatic anomalies of unbilicus and anterior abdominal wall, collective review, 1075
Gentamicin sulfate, in treatment of pseudomonas sepsis in burns, 351
Glucose, uptake by fractured and immobilized limbs in dog, 45
Grafts, rejection, Prolongation of renal homograft function by local, radiation, 49; rejection, Serial studies of blood flow in second set renal homotransplants, 335; venous, Composite saphenous vein, for femoral-popliteal arterial bypass, 580; arterial, Management of infected, prosthesis, 585; venous, Cross leg, for relief of unilateral lower limb, obstruction, 1232; skin, Method of rapid, immobilization, 1303
Granuloma, Emetine in treatment of intra-abdominal and retroperitoneal nonspecific, 792; Umbilical, pilonidal disease, and urachus, 1043

HEART, Treatment of shock in man based on hemodynamic diagnosis, 1; massage, Pulmonary and cerebral fat embolism after closed-chest cardiac, 25; muscle, Postoperative myocardial infarction, 315; surgery, Mitral valve reconstruction or replacement in presence of moderate aortic insufficiency, 488; Hemodynamics of bronchopulmonary anastomoses, 517; surgery, Clinical and hemodynamic results of debridement-valvotomy for calcific aortic stenosis, 770; congential abnormality, surgery, New method for creation of atrial septal defect, 830; blood supply, Application of sudden injection dye dilution principle to study of femoral circulation, 1194; preservation, Utilization of chlorpromazine in, storage and its combined use with hyperbaric oxygen and hypothermia, 1237
Hemodynamics, Treatment of shock in man based on, diagnosis, 1; of bronchopulmonary anastomoses, 517; Use of central venous pressure as accurate guide for body fluid replacement, 545; Experimental study of vascular contribution to callus fracture, 731; Possible explanation for transplantation anuria, 748; Clinical and, results of debridement-valvotomy for calcific aortic stenosis, 770; Application of sudden injection dye dilution principle to study of femoral circulation, 1194
Hemorrhage, Use of epsilon aminocaproic acid, ed. 576; Five year study on gastrointestinal bleeding, 784; control, Current trends of therapy and research in shock, collective review, 835
Hemorrhoids, Pain after hemorrhoidectomy, 1037
Hernia, Technique of repair of herniations associated with colonic stomas, 347; Simplified safe technique for hernial repair, 1065; umbilical, Somatic anomalies of umbilicus and anterior abdominal wall, collective review, 1075
Histology, Histopathology of diminutive polyps of large intestines, 1259
Homografts, See Transplantation
Hormones, thyroid, Comparison of protein-bound iodine in human, vein and peripheral vein blood, 467
Hygroma, Unified concept of lymphangioma and cystic, 79
Hypothermia, Effect of anesthesia on energy exchange in third degree burns, 1207; Utilization of chlorpromazine in heart storage and its combined use with hyperbaric oxygen and, 1237
Hysterectomy, Morbidity of, 965

ILEUM, Ileostomy faceplate custom-fitted by surgeon, 117
Ileus, See Intestines, obstruction
Immobilization, Glucose uptake by fractured and immobilized limbs in dog, 45
Immunity, Transplantation and, collective review, 1317
India, Duties and training of physicians in ancient, as described in Sushruta Samhita, 1067
Infarction, Postoperative myocardial, 315
Infection, experimental, Penicillin prophylaxis of, staphylococcal wound, 243; Gentamicin sulfate in treatment of pseudomonas sepsis in burns, 351; surgical, Early exposure in management of postoperative wound, 503; Management of infected arterial prosthesis, 585; experimental, Pathogenesis of second and third degree burns and conversion to full thickness injury, 983
Infusion, arterial, Report upon, with 5-fluorouracil in 100 patients, 530; Preliminary arteriography in hepatic artery, for cancer, 817; Preferential vasodilator effects in skin of eledoisin by, and perfusion techniques, 1285
Injection, Application of sudden, dye dilution principle to study of femoral circulation, 1194
Instruments and apparatus, pacemaker, Clinical evaluation of gastrointestinal pacer, 35; Ileostomy faceplate, custom-fitted by surgeon, 117; Suture holder and separator attachment to Starr-Edwards prosthetic valve holders, 583; shunt clamp, New technique of rapid end-to-side arterial cannulation, 827; Use of esophagoscope in diagnosis of rupture of esophagus, 1304
Intestines, obstruction, Clinical evaluation of gastrointestinal pacer, 35; physiology, Effect of portal hypertension on intestinal absorption, 87; Studies on pancreatic juice in proximal loop after Billroth II gastrectomy, 507; Aorticointestinal fistulas following surgery of aorta, 992; blood supply, Effect of reduced arterial pressure and flow on intestinal function, 1221; tumors, Histopathology of diminutive polyps of large, 1259
Iodine, Comparison of protein-bound, in human thyroid vein and peripheral vein blood, 467

JEJUNUM, Reversed jejunal segment replacement of stomach, 1213

KIDNEY, transplantation, Prolongation of renal homograft function by local graft radiation, 49; trans-

Breast, cancer, in postmenopausal years, 17; cancer, Selective criteria for surgical removal of endocrine glands in advanced, collective review, 371; postmastectomy lymphedema, 797; blood supply, surgery, Early control of, in radical mastectomy, 822; cancer, Rationale of simple mastectomy without radiation for clinical stage 1, of, 975; Mammography versus biopsy, ed. 1060; surgery, Protection of axillary vein following radical mastectomy, 1063; cancer, Diethylstilbestrol versus testosterone propionate therapy in advanced, 1246

Bronchus, Hemodynamics of bronchopulmonary anastomoses, 517

Burns, Gentamicin sulfate in treatment of pseudomonas sepsis in, 351; Pathogenesis of second and third dedegree, and conversion to full thickness injury, 983; Effect of anesthesia on energy exchange in third degree, 1207; First-aid cooling of fresh, 1271

CALCAR FEMORALE, Significance of, in femoral neck fractures, 340

Cancer, Breast, in postmenopausal years, 17; of oral cavity in Negroes, 70; treatment, Relief of pain in terminal, ed. 115; treatment, Reappraisal of surgical adjuvant, chemotherapy, 299; Malignant melanoma, ed. 343; metastasis, surgery, Selective criteria for surgical removal of endocrine glands in advanced breast, collective review, 371; treatment, Effect of neodymium laser radiation on two experimental malignant tumor systems, 481; treatment, Report upon arterial infusion with 5-fluorouracil in 100 patients, 530; classification, Retrospective field trial for comparison of clinical, of carcinoma of cervix, 553; gastric, Large, 725; treatment, Preliminary arteriography in hepatic artery infusions for, 817; surgery, Rationale of simple mastectomy without radiation for clinical stage 1, of breast, 975; metastasis, treatment, Vascular patterns in human metastatic liver tumors, 1187; treatment, Diethylstilbestrol versus testosterone propionate therapy in advanced breast, 1246; dissemination, Circulating, cells during excision of carcinomas of rectum and colon with high ligation of inferior mesenteric vein, 1266

Cannulation, Peripheral single-catheter, for total cardiopulmonary bypass, 121; New technique of rapid end-to-side arterial, 827

Carcinoma, anaplastic, papillary, with associated, in thyroid gland, 28; treatment, Ten year experience with endometrial, 73; Results of ligation of inferior mesenteric artery at aorta in resections of, of descending and sigmoid colon and rectum, 1031; Circulating cancer cells during excision of, of rectum and colon with high ligation of inferior mesenteric vein, 1266

Cells, hyperplasia, Breast cancer in postmenopausal years, 17; Circulating cancer, during excision of carcinomas of rectum and colon with high ligation of inferior mesenteric vein, 1266

Chemotherapy, Reappraisal of surgical adjuvant cancer, 299; Report upon arterial infusion with 5-fluorouracil in 100 patients, 530; Preliminary arteriography in hepatic artery infusions for cancer, 817; Vascular patterns in human metastatic liver tumors, 1187; Preferential vasodilator effects in skin of cledoisin by infusion and perfusion techniques, 1285

Chlorpromazine, Utilization of, in heart storage and its combined use with hyperbaric oxygen and hypothermia, 1237

Cholecystitis, See Gallbladder, disease

Citrates, toxicity and use of anticoagulant acid, dextrose blood for extracorporeal circulation, 997

Classifications, cancer staging, Retrospective field trial for comparison of clinical, of carcinoma of uterine cervix, 553

Collective Review, Similar connective tissue dynamics in pregnant uteri and healing wounds, 131; Selective criteria for surgical removal of endocrine glands in advanced breast cancer, 371; Stress urinary incontinence in female, 595; Current trends of therapy and research in shock, 835; Somatin anomalies of umbilicus and anterior abdominal wall, 1075; Transplantation and immunity, 1317

Colon, cancer, Results of ligation of inferior mesenteric artery at aorta in resections of carcinoma of descending and sigmoid, and rectum, 1031; cancer, Circulating, cells during excision of carcinomas of rectum and, with high ligation of inferior mesenteric vein, 1266

Colostomy, Technique of repair of herniations associated with colonic stomas, 347

Correspondence, Effects of oxygen at 1 and 2 atmospheres on blood flow and oxygen uptake of cerebral cortex, correction, 370; Carcinoma of breast in women 30 years of age and under, correction, 1316

DIAGNOSIS, Treatment of shock in man based on hemodynamic, 1; Surgical management of pheochromocytoma, 707; Current trends of therapy and research in shock, collective review, 835; differential, Complications of duodenal diverticula and their management, 1251; Surgical intervention in acute pancreatitis, ed. 1301; Use of esophagoscope in, of rupture of esophagus, 1304

Diethylstilbestrol, See Estrogens

Diverticulum, Complications of duodenal, and their management, 1251

Dressings and bandages, Protection of axillary vein following radical mastectomy, 1063

Duodenum, ulcers, Long term results of partial gastric resection without vagotomy in, disease, 970; Complications of duodenal diverticula and their management, 1251

EDEMA, First-aid cooling of fresh burn, 1271

Editorials, Relief of pain in terminal cancer, 115; Malignant melanoma, 343; Use of epsilon aminocaproic acid, 576; Surgical principles, 820; Responsibilities of surgeon performing cosmetic surgical operations,1058; Mammography versus biopsy, 1060; Surgical intervention in acute pancreatitis, 1301

Embolism, fat, Pulmonary and cerebral, after closed-chest cardiac massage, 25; pulmonary, Peripheral single-catheter cannulization for total cardiopulmonary bypass, 121; Experimental amniotic fluid and meconium, 255; pulmonary, Complications following lower extremity amputation, 301; pulmonary, Mechanism of, hypertension following miliary, 1009

Embryology, Somatic anomalies of umbilicus and anterior abdominal wall, collective review, 1075

Emetine, in treatment of intra-abdominal and retroperitoneal nonspecific granulomas, 792

Emphysema, Management of spontaneous pneumothorax due to emphysematous blebs, 499

Endocrine glands, Selective criteria for surgical removal of, in advanced breast cancer, collective review, 371

Endometriosis, Clinically significant, of urinary tract, 491

Endometrium, Ten year experience with endometrial carcinoma, 73

Epsilon aminocaproic acid, Use of, ed. 576

Escherichia coli, Development of acquired blood group antigen in surgical patients with peritonitis due to, 757

Esophagus, Pathology of lower esophageal web, 571; surgery, New method for reconstruction of esophagogastric junction, 1225; hernia, Use of esophagoscope in diagnosis of rupture of, 1304

Estrogens, Diethylstilbestrol versus testosterone propionate therapy in advanced breast cancer, 1246
Extremities, Glucose uptake by fractured and immobilized limbs in dog, 45; Complications following lower, amputation, 301

FEMUR, fracture, Significance of calcar femorale in femoral neck, 340; fracture, Arterial injuries associated with dislocation of knee or, of lower, 961
First aid, cooling of fresh burn, 1271
Fistula, vesicovaginal, Simple technique for closure of, 353; Aorticointestinal, following surgery of aorta, 992; Vaginal, following radiotherapy, 1019
Fluids, balance, Use of central venous pressure as accurate guide for body, replacement, 545
5-Fluorouracil, Report upon arterial infusion with, in 100 patients, 530
Fractures, Glucose uptake by fractured and immobolized limbs in dog, 45; associated injuries, Injury of bladder and prostatomembranous urethra associated with, of bony pelvis, 99; diagnosis, Significance of calcar femorale in femoral neck, 340; healing, Experimental study of vascular contribution to callus of, 731; Arterial injuries associated with dislocation of knee or, of lower femur, 961
Fredet-Ramstedt operation, Modification of classical, incision, 345

GALLBLADDER, disease, Acute cholecystitis, 475
Gastrointestinal tract, obstruction, Clinical evaluation of, pacer, 35; hemorrhage, Five year study on, bleeding, 784
Gastroschisis, Somatic anomalies of unbilicus and anterior abdominal wall, collective review, 1075
Gentamicin sulfate, in treatment of pseudomonas sepsis in burns, 351
Glucose, uptake by fractured and immobilized limbs in dog, 45
Grafts, rejection, Prolongation of renal homograft function by local, radiation, 49; rejection, Serial studies of blood flow in second set renal homotransplants, 335; venous, Composite saphenous vein, for femoral-popliteal arterial bypass, 580; arterial, Management of infected, prosthesis, 585; venous, Cross leg, for relief of unilateral lower limb, obstruction, 1232; skin, Method of rapid, immobilization, 1303
Granuloma, Emetine in treatment of intra-abdominal and retroperitoneal nonspecific, 792; Umbilical, pilonidal disease, and urachus, 1043

HEART, Treatment of shock in man based on hemodynamic diagnosis, 1; massage, Pulmonary and cerebral fat embolism after closed-chest cardiac, 25; muscle, Postoperative myocardial infarction, 315; surgery, Mitral valve reconstruction or replacement in presence of moderate aortic insufficiency, 488; Hemodynamics of bronchopulmonary anastomoses, 517; surgery, Clinical and hemodynamic results of debridement-valvotomy for calcific aortic stenosis, 770; congential abnormality, surgery, New method for creation of atrial septal defect, 830; blood supply, Application of sudden injection dye dilution principle to study of femoral circulation, 1194; preservation, Utilization of chlorpromazine in, storage and its combined use with hyperbaric oxygen and hypothermia, 1237
Hemodynamics, Treatment of shock in man based on, diagnosis, 1; of bronchopulmonary anastomoses, 517; Use of central venous pressure as accurate guide for body fluid replacement, 545; Experimental study of vascular contribution to callus fracture, 731; Possible explanation for transplantation anuria, 748; Clinical and, results of debridement-valvotomy for calcific aortic stenosis, 770; Application of sudden injection dye dilution principle to study of femoral circulation, 1194
Hemorrhage, Use of epsilon aminocaproic acid, ed. 576; Five year study on gastrointestinal bleeding, 784; control, Current trends of therapy and research in shock, collective review, 835
Hemorrhoids, Pain after hemorrhoidectomy, 1037
Hernia, Technique of repair of herniations associated with colonic stomas, 347; Simplified safe technique for hernial repair, 1065; umbilical, Somatic anomalies of umbilicus and anterior abdominal wall, collective review, 1075
Histology, Histopathology of diminutive polyps of large intestines, 1259
Homografts, See Transplantation
Hormones, thyroid, Comparison of protein-bound iodine in human, vein and peripheral vein blood, 467
Hygroma, Unified concept of lymphangioma and cystic, 79
Hypothermia, Effect of anesthesia on energy exchange in third degree burns, 1207; Utilization of chlorpromazine in heart storage and its combined use with hyperbaric oxygen and, 1237
Hysterectomy, Morbidity of, 965

ILEUM, Ileostomy faceplate custom-fitted by surgeon, 117
Ileus, See Intestines, obstruction
Immobilization, Glucose uptake by fractured and immobilized limbs in dog, 45
Immunity, Transplantation and, collective review, 1317
India, Duties and training of physicians in ancient, as described in Sushruta Samhita, 1067
Infarction, Postoperative myocardial, 315
Infection, experimental, Penicillin prophylaxis of, staphylococcal wound, 243; Gentamicin sulfate in treatment of pseudomonas sepsis in burns, 351; surgical, Early exposure in management of postoperative wound, 503; Management of infected arterial prosthesis, 585; experimental, Pathogenesis of second and third degree burns and conversion to full thickness injury, 983
Infusion, arterial, Report upon, with 5-fluorouracil in 100 patients, 530; Preliminary arteriography in hepatic artery, for cancer, 817; Preferential vasodilator effects in skin of eledoisin by, and perfusion techniques, 1285
Injection, Application of sudden, dye dilution principle to study of femoral circulation, 1194
Instruments and apparatus, pacemaker, Clinical evaluation of gastrointestinal pacer, 35; Ileostomy faceplate, custom-fitted by surgeon, 117; Suture holder and separator attachment to Starr-Edwards prosthetic valve holders, 583; shunt clamp, New technique of rapid end-to-side arterial cannulation, 827; Use of esophagoscope in diagnosis of rupture of esophagus, 1304
Intestines, obstruction, Clinical evaluation of gastrointestinal pacer, 35; physiology, Effect of portal hypertension on intestinal absorption, 87; Studies on pancreatic juice in proximal loop after Billroth II gastrectomy, 507; Aorticointestinal fistulas following surgery of aorta, 992; blood supply, Effect of reduced arterial pressure and flow on intestinal function, 1221; tumors, Histopathology of diminutive polyps of large, 1259
Iodine, Comparison of protein-bound, in human thyroid vein and peripheral vein blood, 467

JEJUNUM, Reversed jejunal segment replacement of stomach, 1213

KIDNEY, transplantation, Prolongation of renal homograft function by local graft radiation, 49; trans-

plantation, Serial studies of blood flow in second set renal homotransplants, 335; transplantation, Possible explanation for, anuria, 748; physiology, Intravenous urography in presence of uremia, 810; Transplantation, and immunity, collective review, 1317
Knee, Arterial injuries associated with dislocation of, or fracture of lower femur, 961

LASER, Effect of neodymium, radiation on two experimental malignant tumor systems, 481
Legs, Evaluation of factors which influence mortality and morbidity following major lower extremity amputations for arteriosclerosis, 1217; blood supply, Cross, venous graft for relief of unilateral lower limb venous obstruction, 1232
Ligament, Cooper's, Simplified safe technique for hernial repair, 1065
Ligation, Results of, of inferior mesenteric artery at aorta in resections of carcinoma of descending and sigmoid colon and rectum, 1031
Liver, blood supply, physiology, Intrahepatic portal vein-hepatic artery relationship, 38; blood supply, Experimental production of elevated portal pressure by increasing portal flow, 514; physiology, Postoperative strictures of extrahepatic bile ducts, 560; cancer, preliminary arteriography in hepatic artery infusions for, 817; cancer, blood supply, Vascular patterns in human metastatic, tumors, 1187
Lungs, blood supply, Pulmonary and cerebral fat embolism after closed-chest cardiac massage, 25; Management of spontaneous pneumothorax due to emphysematous blebs, 499; Hemodynamics of bronchopulmonary anastomoses, 517; surgery, Control of air leaks following subsegmental pulmonary resections, 803; blood supply, Mechanism of pulmonary hypertension following miliary pulmonary embolism, 1009
Lymph, drainage, Unified concept of lymphangioma and cystic hygroma, 79; Thoracic duct, drainage in congenital biliary atresia, 123; circulation, Considerations on restoration of lymphatic, after pelvic lymphadenectomy, 323
Lymphangioma, Unified concept of, and cystic hygroma, 79
Lymphedema, Postmastectomy, 797
Lymph nodes, Considerations on restoration of lymphatic circulation after pelvic lymphadenectomy, 323; cancer, Results of ligation of inferior mesenteric artery at aorta in resections of carcinoma of descending and sigmoid colon and rectum, 1031

MASSAGE, Pulmonary and cerebral fat embolism after closed-chest cardiac, 25
Maternity, mortality, Experimental amniotic fluid and meconium embolism, 255
Meconium, Experimental amniotic fluid and, embolism, 255
Medicine, Duties and training of physicians in ancient India as described in Sushruta Samhita, 1067
Medicolegal problem, Atrophy of testicle as surgical risk, 511
Melanoma, See Tumors, melanomas
Menopause, Breast cancer in postmenopausal years, 17
Metabolism, Metabolic studies in patients subsequent to selective gastric vagotomy, 472; Balances of water, sodium, potassium, and nitrogen in cranial surgery and trauma estimated by computer analysis, 761; Metabolic effects of selective and total vagotomy, 777; Riboflavin, in surgical patients, 1289
Mitral valve, reconstruction or replacement in presence of moderate aortic insufficiency, 488; Suture holder and separator attachment to Starr-Edwards prosthetic valve holders, 583; Bivenous diversion for approach to, lesions from left side, 1061
Morbidity, of hysterectomy, 965; Evaluation of factors which influence mortality and, following major lower extremity amputations for arteriosclerosis, 1217
